- VIII. Where we are**

Who we are

We are a highly specialized company in Transportation and Logistics Services *Hi-Tech*.

We supply high quality logistic solutions tailored for our customers.

G3 Sales Europe. Smart Logistics.

Who we are

Since 1991 we're a reference in hi tech logistics spanish market. This has been possible thanks a strong comitment with our customers, to our experience and know how and to our technical means to manage sensitive and valuable goods.

Our network in Spain has facilities and hubs in Madrid, Barcelona, Valencia, Zaragoza, Bilbao, Sevilla, Lugo, Valladolid, Palma de Mallorca, Las Palmas de Gran Canaria and Lisbon.

Our customers

IT hardware

Telecommunications equipment

Medical equipment

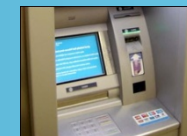

Laboratory equipment

Manufacturing

ATM

Our customers (II)

Fitness / Wellness

Energy systems

Automobiles

Services

Logistics

Services On-Site

Specialized Transportation

Vehicles Transportation

Warehousing

In our facilities around Spain and Portugal we supply full warehousing services: stock management, order management, cross docking, and other added value jobs.

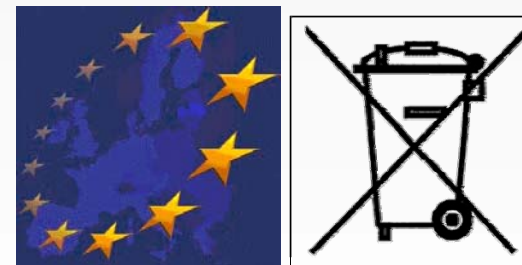

Distribution

Regular services, express, door to door, final mile, etc. We can do them locally and internationally, with powerful IT tools that provide our customer with on-line visibility and track and trace.

Reverse Logistics- WEEE

Reverse logistics of used equipments.
Waste disposal and recycling of the
machines and accessories according
to **WEEE**.

Tailored solutions for each customer.

We study each case to provide the best solution for each customer.

Final placement

Wherever the equipment must go, wherever we put it using all the necessary means..

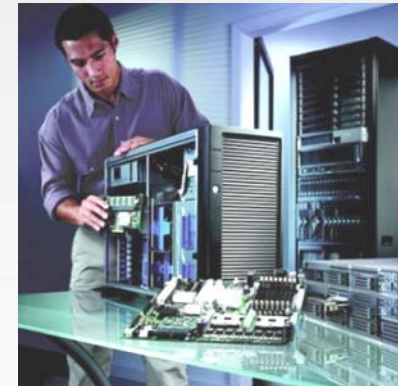

Packed / Unpacked

We take care of the packaging disposal. We are able to manage unpacked goods, which is very useful in the reverse logistics works.

Preinstalation / Instalation

We can perform technical works including network connection and "green button", checking the right functioning of the equipment.

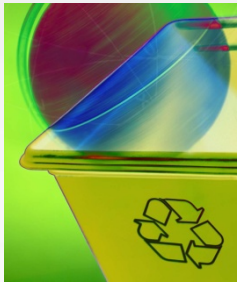

Accesses / Special means

Roofs in high buildings, narrow stairs, difficult basements? No problem: we can reach the right place with the right mean: cranes, stair crawlers, etc

Waste disposal

Waste disposal and recycling of the machines and accessories according to **WEEE**

Liability

hi-tech equipments are valuable. We can insure the goods and also third party risks. Nothing left to hasard.

SPECIALIZES TRANSPORT Services

Special Means

Stair crawlers, cranes, fork lifts,,
hoists, hydraulic jacks, etc
We use the right mean for each
situation.

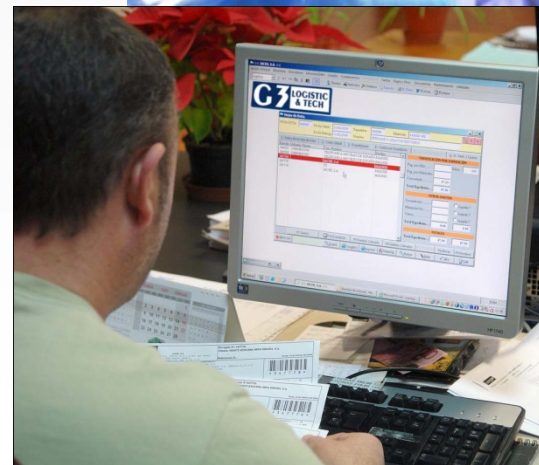

Import / Export

We can manage import/export processes, customs clearance, etc.

Track and Trace

You can keep full control of your shipment status using our *track and trace* online system, view your pod from our web page and download it and print it.
